

I am writing to enthusiastically support XM Satellite radio. I purchase XM radio for both my home and car. I particularly enjoy the variety and quality of programming offered on XM radio, something that is not available to me on FM or AM radio. I benefit from the weather channel and am I am particularly looking forward to the local traffic channel that will be coming to my city later in 2004. I am willing to pay for the services offered by XM radio and I do not believe that it should be up to the National Association of Broadcasters (NAB) to dictate what I am permitted to hear. I respectfully urge you to reject the NAB's petition 04-160 and to support XM radio's ability to provide the kind of programming that I demand and deserve.
